So today I want to talk to you, and this is a long message. So please just get your notes out and get ready. This is going to be a big message. It's going to have a lot of content, but I need you to stick with me. Okay. So I want to talk to you today about the genetic war or the gene war, which is an unusual statement, and it might not be what you'd expect coming to a Christian Church. And listening to that, there's a genetic war. It sounds kind of crazy, but I want to take you through the scriptures today, and I want to show you some things that maybe you never thought or even imagined were in biblical history. I want to show you stuff that because of the days that we're living in and you know, in certain times of the world, especially with some of the technology being absent and only available till very recently, some of these details we're going to be talking about today, didn't even come into people's mentality 10, 15, 20 years ago.

[\(00:55\):](#)

But some of the stuff that's happening now is so crazy and way off the grid that you've got to stop and pay attention. Or your, if you remember, if you look at the book of Daniel or the book of revelation, the writer, the spirit of God is speaking to the writer. And he said, seal up these things for the appointed time or wait, you know him who has ears, let him hear, right? So there's certain things like for instance, revelation is written very cryptically so that people 200 years ago probably had no idea. They probably speculated with their current knowledge on what they thought it was. But until you get to a point where you start seeing signposts actually lining up, and it's not some crazy way out the hypothesis, it actually starts to become relevant. Does this make sense? That's why I say seal up these words till the appointed time.

[\(01:48\):](#)

Cool. So some of the things we need to talk about right now, maybe something that you've never heard about in church before, but don't just trip out on what I'm saying. Look at what's happening in the world and look at the scriptures. I'm going to start running through with you. And I'm going to start to show you a track record from the very beginning of time that you'll start to understand exactly what we're looking at. Now. The Bible says in Ecclesiastes, there's nothing new under the sun. See, we want to believe that we're cutting edge and we, you know, no one understands what we're doing. And we're so amazing. No, there is nothing new under the sun. The agenda is the same. Sorry. Come with me, please. To the book of Genesis chapter two, I'm going to start moving very, very quickly. I have some amazing stuff that I'm super excited to show you. You are awesomely made by God. You're awesomely made by God. And I don't even what I'm going to say today. I'm really barely scratching the surface. You can go deeper on this stuff.

[\(02:49\):](#)

Genesis chapter two. And I'm going to read from verse seven out of the amplified Bible, then the Lord God formed, and then open brackets that is created body of man from the dust of the ground and breathed into his nostrils, the breath of life. Do you understand that God is so amazing that all he has to do is exhale and did things come to life. That's who we're working with, right? God, like, see, we understand, especially with a lot of people wearing masks recently that we understand when we exhale that's body waste. So what comes out of God creates life.

[\(03:37\):](#)

Okay? And then man, this is the response of that piece of dirt that God picked up and formed into what looked like a body. And then man, Adam became a living, being other translations, refer to a living spirit because he didn't just become a dog. God put spirit, not just breath into the body. This is a vessel. This is a vessel that carries a spirit, a soul and a mind, okay, this is my rental car, but it's not a cheap thing that I should treat with the stain. This is, this has the breath of God borrowed into it. When I pass the breath that he gave me will return back to him. Okay. Are we cool? Okay. Now come down to Genesis chapter three, we know that Adam and Eve were in the garden, God and trusted them. He said, you can do anything you want.

[\(04:39\)](#):

Don't eat that one fruit over there. That's the fruit of the, of the tree of knowledge of good and evil. The day you do that, you'll surely die. The serpent comes into the garden. He says, you know, well actually let me paraphrase that for a second. Lucifer into the serpent, like a possession. And then the serpent came in and then spoke to Eve. You tracking me now the serpent, wasn't a snake because afterwards the Bible tells us that God cursed the serpent and it was no longer able to do anything but slither on its belly. So it probably was more like a dragon, probably the most majestic creature in all of creation. It probably had legs and wings. That's why Jesus called the devil. The dragon of old. Are you tracking me? I want to say some stuff that we've read so many times, but we haven't maybe tracked it. It probably was a majestic creature. And that is why humanity has had an obsession with dragons, all of history.

[\(05:42\)](#):

Hello. That's probably why our kids love dinosaurs. Okay. We'll get to that in a minute. Okay. So you tracking me. So now with now we're about the judgment. God's come in now they've eaten the fruit. They're in trouble. They got Nike and then they put fig leaves on themselves and hit, which was a A-class game plan, Genesis chapter three, verse one. And I'm going to read through 15. So track with me real quick. Now the serpent was more cunning than any beast of the field, which the Lord God had made. And he said to the woman has God indeed said to you, you shall not eat of any tree of the garden. And the woman said to the serpent, yet we may not eat the fruit of the tree of the, of the garden. Sorry. We may eat of the fruit of the trees of this garden, but of the fruit of the tree of the, which is in the midst of the garden, which is the true tree of knowledge of good and evil.

[\(06:39\)](#):

We may not eat it for you will surely die for God knows. Sorry. I skipped a line there in the serpent's head of the woman. You will not surely die, right for God knows that in the day that you eat it, your eyes will be opened and you will be like God knowing good and evil. So when the woman saw that the tree was good for food, this is humanism. 1.0, this is human straight up. This is humanism 1 0 1 right now it's it's intellectual scientific Ascension. Okay. I'm greater than God. I have progressive thinking. I can think outside the boundaries, I don't need to follow guidelines. This is exactly what he pitched to her. And at the very beginning of time, this is why we're in the meats as humanism to actually lose the fairy aneurysm. But when a human takes onboard Lucifer's aneurysm, it becomes humanism. You look like your father. The devil is what Jesus said. Okay. So, okay, you're catching me here.

[\(07:51\)](#):

So when she saw that it was good for food, that it was pleasant to the eyes and the tree was desirable to make one wise. She took of the fruit and ate, and she also gave it to her husband with her. And he ate. Then the eyes of both of them were opened and they knew they were naked and sewed fig leaves

together and made themselves coverings. We all know this and they heard the sound of the Lord walking through the garden in the cool of the day, which was his custom. He came to them in the cool of the day. He'd always come. Um, and Adam and his wife hid themselves from the presence of the Lord, among the trees of the garden and the Lord, God, I'm reading fast because I'm trying to get to a punch point here. Then the Lord, God called Adam. And he said, where are you? Like God ever needed help knowing where you were, but God does need your honesty facing up. That's why Jesus. He walked up on everyone and he's like, what do you need? It's like, dude, Jesus already knew. You just need to admit your need. Can you catch me? Okay, let's keep moving here.

[\(08:52\)](#):

Um, and Adam basically said, I was, I was afraid because I was naked and I hid myself. And he said, who told you that you were naked? That's the, that's the clutch point right there. Right? Because your sin brought an awareness that you will now deficient, okay. Have you eaten of the tree, which I commanded you, that you should not eat. And then the man said, the woman you gave me, see, that's the first instance. You know, that this man is completely broken aside from the fig leaves is now, now instead of being the leader he was made to be, he's now hiding behind his woman.

[\(09:32\)](#):

And that's the picture of most men and modern society and a bunch of cowards. We need men to have the spirit of God in them that will stand up and actually be something. Cause the racist society would come into a healthy cohesion of men would actually be real mean you wouldn't need a feminist movement of men actually were real men because real men would treat women well and empower them and protect them. Give them a voice. Okay, we'll leave that right there. Okay. I need to keep moving here because I have a gang of content we haven't even started yet.
