

[\(00:01\):](#)

Okay. So the woman you gave me, she gave me the tree of the fruit of the tree and I ate. And the Lord said to the woman, what is the stuff you've done? And the woman said, will the serpent actually deceive me? So she had a side story to her problem is, is that she went outside the bounds of her husband's leadership and got too independent. And his problem was is that he became too distracted. Cause if he had been with her walking with her, then the serpent wouldn't have had an open door. Okay. Adamson was that he trusted the woman's his woman's voice more than God's right? That's that was his son.

[\(00:54\):](#)

But Eve sin was that she questioned God, you got to catch that. She questioned that God was good. Adam gave his wife's voice power over God's voice in his mind. And that's the w we're dealing with an antichrist spirit right now on the earth. Like we've never seen before. And you need to understand some of these comments that I'm stopping to make. I'm not just making them casually because it's a great point. It's because the spirit of the age is back and it has the same characters. Okay. Let's keep moving. I'm not even at my main points yet. Okay. The serpent deceived me and I ate. So the Lord said the seven, because you have done this, you will curse more than all of the cattle, more than any beast of the field on your belly, you shall go see Michael Angelo de Vinci, all those great artists. They always paint the serpent, coming to Eve like a snake in the tree and talking to her. Wasn't a snake, became a snake afterwards, read the book. You'll figure it out. You catching me here and you shall eat the dust all the days of your life. Now watch this. This is, this is our opening point here. And I will put in the tea, which means war between you and the woman and between your seed and her seed genetic war. Now, hang on a minute. I didn't know that Satan had seed.

[\(02:24\):](#)

Oh, that's interesting. Hello. You gone real quiet in this charismatic church. I didn't know that the devil had sons, but God is specifically saying here that I will put in the tea between her seed and your seed. Now you could say shallow Christianity, but well, that was talking about the coming of Jesus. Yeah, that's true. That's the seed. That's the bloodline that followed Eve all the way down to David onto Mary. Right? We understand that. But then what about the bloodline of the devil? So we're going to catch that in a second. Okay. If I got your attention now, okay. This stuff matters because of where we're going. Okay. Come with me now to Genesis chapter six, we're going to, we're going to track this through the scriptures, Genesis six. And this is how I was even just talking to the Lord. I said, I just want to really a hundred percent make sure there's what you want me to preach. Give me a sign. Jesus. And then pass the GF steps up. He starts preaching my scriptures. Find that's you Jesus. And the main line.

[\(03:42\):](#)

Okay. Genesis six verse one. Now it came to pass. When men began to multiply on the face of the earth and daughters were born to them. People had kids, some of them are girls, right? That's what it's saying. That the sons of God, now this is getting weird that the sons of God saw the daughters of men, that they were beautiful. And they took wives for themselves of all whom they chose. And the Lord said, my spiritual not strive with man forever. Stop right there. It's literally telling us that angels were coming to earth, physical form and taking human wives. Now this might be out there for some of you. You might been in church your whole entire life, and ain't never read this before. Okay? But I'm going to show you that this is literally what I'm just getting started here. We're going to, we're going to go on a trail through the scriptures and your mind's about to get blown right now, because unless you understand

what I'm going to talk to you about today, you're not going to understand what governments are trying to roll out worldwide. Right now.

[\(05:06\):](#)

You need to understand this. Otherwise you're going to get deceived. And I know this could seem like some real weird calm flight science fiction, star Trek blow out. But it's not. We're just reading the scriptures. Remember this is not speculation. I'm reading scriptures. Okay. So what that means is there's some weird stuff on the TV. Guys. You seen that dude with the we're here. I think it's history channel that ancient aliens dude, some of you seen them on late night shows that dude is a freak show. He is demon possessed. Okay. Listen, listen. There's people that try and claim that aliens came and visited the planet throughout history to early civilizations. Has any of you ever heard of that stuff before seeing the paintings on the walls? The, the hand paint spray stuff on those cables, that stuff is real. It's just that they ain't aliens.

[\(06:05\):](#)

They're angelic beings, demonic entities. Okay. And you know, when people talk about that, they'd been abused and all kinds of stuff with abductions, that stuff is real. It's just not little green men. It's fallen angels. The scriptures are very clear. I hope I'm not disturbing anyone, but you know, I'd rather disturb you with honesty than speculation. Okay? So God, literally, he's looking at this and he's going, I'm not going to put up with this because you have to understand something. Genesis chapter one, God doesn't present himself. As the judge, he doesn't present himself as provide a healer Rafa. He doesn't, he doesn't come with all these different, great names. He just comes with creator. God shows up with the artist as his forefront. He is, he is the creator got a super dry mouth today. He's the creator. Now I'm, I'm creative. I'm an entrepreneur.

[\(07:14\):](#)

Okay. I have inventions that I've made. Okay. And on my inventions, I have a patent number of patented my products. Okay. On every single one of my products, there is a unique to me patent number. I have it in 27 nations plus the U S okay. That means that that is my product. Okay. So that basically says that my personal ownership is embedded in a branded on my product. I am a creator. If someone takes that and tries to deface it or create something else as a hybrid, I'm going to Sue them because they are infringing on my invention. Are you catching me here? Because it's mine. I made it. God gave me the idea.

[\(08:13\):](#)

You catching me here. So the reason I'm saying that is this. I mean, you know, have you ever seen someone? That's an artist, is anyone here like really good at painting? Okay. Well, you know, potato prints, you cut potato in half and finger painting, right? But if you've got someone that's a phenomenal artist, whether that be music or art or painting, whatever you want to call it. And you have someone that tries to put their name on the bottom of your piece, it's on because you have just insulted the intimate expression of that artist. God presented himself creator. So you are the artwork, but more than artwork, you are the living carrier of his breath, which is spirit. And I'm going to prove that to you in a little bit here, I've got some stuff to show you that it's going to blow you away.

[\(09:09\):](#)

It's blown me away. So, so when God literally is looking at fallen, angelic beings coming and starting to interbreed with the daughters of men, right? You understand? That's what that means, right? It's called

hybridization. It's kind of crazy. But some of you have dogs that didn't maybe get made by God and people crossbred them. And that came out, that's called hybridization. Right? Hello. But this ain't that kind of, that let's say in that kind of hybridization, this isn't crossbreeding. This is like an illegal act against God, you catching me here, watch this. This is important. You understand this because once you start to see what I'm going to say here, you're going to, you're going to start to wake up to some stuff that's going on.

[\(10:00\):](#)

And I know there's a lot of conspiracy theorists. This isn't conspiracy. This is just straight right here for you to look at, okay. He said, I'm not going to strive with man forever for, he is indeed flesh. Yet. His days shall be 120 years. Now, prior to that, you had people living eight, 900 years, thousand years old. Right? So God sees this and he shortens their days, which is crazy. But yes. Wow. Okay. He says, I'm going to shorten the days to 120 years. They don't watch this. The very next verse. Next verse. It says there were giants on the earth in those days. And also afterward when the sons of God came into the daughters of men and bore children to them, why am I reading this passage to you?

[\(11:00\):](#)

I'll tell you why. Because in the garden, God literally said to Eve, your seed will be at immunity with her seed, right? But then as you go on you, you see that literally he says that her seed will bear the son, this promise coming son, the lamb slain before the foundation of the earth. And he will bruise your head and he's going to take your keys. And he's going to redeem everything Adam and Eve have given up. Right? We get that. We understand that JE Jesus literally was prophesied right there. And then in the garden, he is the, he is the fixed all. He is the redemption to this mess. So why would angel show up and start trying breed with woman?

[\(11:58\):](#)

Because if I'm the devil and I'm looking at this, God has put an absolute judgment down. We can breed out the promise. You tracking this here, you got to catch this because you can remove the very pure, pure bloodline from Adam and Eve. So that now God's promise is null and void. This is a strategic gene war, because if that happens enough, then Jesus never comes. The tracking you, I noticed some of you were like, this is like, whoa, dude. I've never heard this before. This is way off the nine. It's actually right here in the book of Genesis chapter six and Genesis two and Genesis three. Wow. Okay. Keep rolling. Because we've got more Genesis stuff happening. Okay. Now watch this. This is some interesting stuff that I've been paying attention to here. So there were giants in the earth in those days. And afterwards, when the sons of God came into the daughters of men and they brought children to them, those were my team, men who were of old men of renown.

[\(13:12\):](#)

Now I stopped and I paid attention to that word. Renown. That word renowned is actually very interesting because it has base root meanings that track to celebrity, which I find very interesting. Don't you find that very, very interesting that they were basically the celebrities of their age. They were the leadership of governments and politics and war track this with me. It's this is, this is not your average Sunday service, but you need to be aware of some of the stuff because here's the deal. Satan only has one you've listened to me right now. Satan only has one playbook. We serve the creator who never needs to use the same strategy twice. Satan only has one strategy. He's used it over and over again and tried to re put makeup on it. So it looks different. It's the same strategy. The end of the book's already

written he's buying time, but we have to pay attention to the strategy because the Bible says, if it were very possible, even the very elect would be deceived. So we're dealing with very high level deception. Get this Adam and Eve walked personally with God every day and had no sin. And yet Satan deceived Eve get that, do not underestimate the power of this deception. It's powerful. That's why we encourage you to read the word of God academy to keep moving here, watch this. So those were mighty men of old men of renown. So they

[\(14:51\)](#):

Were almost like the Kings and the Lords of the earth at that time. And they were really almost running things, the needful them. Nice. I don't re I think maybe with that thing that happened in Hawaii when we were out there at one time, I woke up in the middle of the night and I just, I mean, I was, we were in a hotel. We were flying down to New Zealand, pastor Jeff and I, and we were sharing a room in, uh, in Hawaii on a, on a stop over there, visiting a church out there. And I woke up in the middle of the night. I don't even remember saying this, but he said, I sat, bolt upright in bed. And I said, the NEFA coming. And then lay back down, straight back to sleep. That's Amanda, you can't make that stuff up. That really happened. That really happened. Okay. I need to keep moving here because I've crazy amount of content to cover.
